

HARDOX®
HARDOX®
WEARPARTS

Freadman Steel, Inc. has been providing Hardox® wear parts and Strenx™ High Strength Steel for the construction, aggregate and mining industries since 2002. We have the ability to produce custom wear parts, i.e. bucket liners, truck body liners, crusher main frame liners, dozer facings, chutes, hoppers, feeders,

mixer floors and sides, cyclone cone segments, duct work, and much more. With our heavy plate rolling and 1,000 ton press brake forming capability we can duplicate or produce almost any wear part. In addition, with our 8' x 24' BTD-8X® HD plasma burning table we have the ability to drill, tap, counter sink/counter bore most Hardox grades.

STAIR STRINGERS

Plasma cutting of 1/2", 3/4" and 1" plates rolled to form circular stairs

SHAPE ROLLING

12" Sch 40 6061 Aluminum Pipe Rolled to a 9'00 Radius

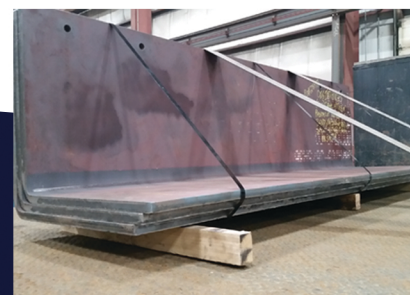

PLATE PROCESSING & FORMING

1" A36 Plate 25" x 24" x 8' 1" LG bent 90 deg. with drilled holes
